

3. HOW ARE THE NEW
RECYCLED BOTTLES
MADE?

RECYCLING GLASS
BOTTLES

1. WHAT HAPPENS TO
THE OLD GLASS
BOTTLES?

when the people take their
used bottles to a bottle
bank

then a lorry take them to
a recycling plant

the glass is crushed into
small pieces

2. WHERE DOES THE
CRUSHED GLASS GO?

the crushed glass is sent
by a lorry to a bottle
factory

is mixed with a small
amount of silica sand

is melted in a furnace at
a lower temperature than
the new glass
