

MYSTERY DISAPPEARANCE

MYSTERY DISAPPEARANCE OF ENGLISH TEACHER

The teacher called Juana Martínez had been working 10 years in the King's college, she was the English secondary teacher and she is 55 years old.

WHAT HAPPENS?

Students Suspected A teacher named Juana Martínez disappeared ten days ago. She taught English in King's College since ten years ago, and all the people used to say that she was the best teacher of the school, because she was always happy and she loved explain her subject and she love spending time with their pupils.

The last day that she came to the school was the 19 of february.

The investigators talking with the students to collect information that could help in this situation, they discover that the last week one of her pupils listened that a group of students was talking about hitting the teacher.

Then, the investigators are studing the life of these 2 students, and they have interrogate them. According to the inspector Rodrigo Zapata, both children were very nervous and restless, which was a clear clue to continue investigating them. Finally, yesterday they found a lot of footprints near to the last place where the teacher was seen.

This was an incredible clue, but the investigators said that they have to continue searching.
